and your practice with
biological indicator
results in 24 minutes*.**

3M™ Attest™ Mini Auto-reader 490M
for sterilization monitoring

Now available! The 3M™ Attest™ Mini Auto-reader 490M.

In-office monitoring (spore testing) can help reduce the risk of patient exposure to contaminated dental instruments. Sized and priced for office use, the Attest™ Mini Auto-reader 490M lets you bring rapid sterilization monitoring to your practice – because your patients deserve the highest standard of care.

- In-house sterilization monitoring results in just 24 minutes*
- Know results before you release instruments for use – offering your patients a high standard of care
- Designed to be sized and priced for your practice
- Same expert 3M sterilization assurance technology as used in hospitals

*When used with Attest™ Auto-reader 490 or 490H with software version 4.2.7 or greater.

Your partner in patient safety.

- Easy to read display
- Small footprint for space-constrained areas
- Connect to a PC for digital documentation of biological indicator results
