3M™ RelyX™ Universal Resin Cement and
3M™ Scotchbond™ Universal Plus Adhesive

The two that can do it all.

3M™ RelyX™ Universal Resin Cement works both as a standalone, self-adhesive cement – and as an adhesive cement together with 3M™ Scotchbond™ Universal Plus Adhesive. The adhesive serves as a universal primer for all materials and covers all direct and indirect bonding indications.

Eliminate the hassle and confusion of multiple resin cements, primers and adhesives and simplify your direct and indirect restorative workflows. Less products to keep on stock and replenish. Saves space, time and money.
