**3M™ Scotchbond™ Universal Plus
Adhesive**

**More than just
a strong bond.**

3M™
Scotchbond™
Universal Plus
Adhesive takes
universal adhesives to
the next level.
It keeps all the benefits of the
original 3M™ Scotchbond™
Universal Adhesive, the first truly
universal adhesive, while adding
even greater control and
predictability – because a good
adhesive should provide more
than just a strong bond.

From excellent...

Built on the clinically proven and world's most researched universal adhesive.

-  **All direct and indirect indications**
light-curing, self-curing or dual-curing
methacrylate-based composites / cements.
-  **All etching techniques**
total-etch, self-etch and selective
enamel etch.
-  **Bonds to all restorative materials**
without the need for separate primers.
-  **Available in vial and unit dose**
for efficient hygiene management.
-  **Virtually no post-operative sensitivity**
in field evaluation:

99% of dentists reported that
**Scotchbond™ Universal Plus Adhesive shows
virtually no post-operative sensitivity.***

*Field evaluation with 309 dentists and over 20,000 applications.

...to exceptional.

Formulation carefully optimized to achieve unique features.

-  **First radiopaque universal adhesive**
reducing the risk of X-ray misdiagnosis
and invasive overtreatment.
-  **Bonds and seals caries-affected dentin**
maximizing preservation of natural tooth structure,
supporting minimally invasive preparation guidelines.
-  **Gold standard adhesion to all dental substrates**
including glass ceramics.
-  **Full dual- and self-cure compatibility**
no need for an additional dual-cure activator bottle.
-  **New BPA free formulation**
free of BPA derivatives like
BisGMA.
-  **Fully aligned system with 3M™ RelyX™
Universal Resin Cement**
excellent bond strength for virtually all resin cement
indications. Adhesive is cured by the cement.

Added radiopacity.

Dentists may see at least one hard to interpret X-ray per day due to radiolucency under an existing restoration. This could lead to misdiagnosis and invasive overtreatment. 3M™ Scotchbond™ Universal Plus Adhesive is the first radiopaque universal adhesive with dentin-like radiopacity, helping to overcome this issue.

“Radiolucent adhesive pooling underneath a restoration doubles the risk of restoration replacement.”
