

Filtek™

Supreme
Flowable Restorative

Now our most popular flowable is easier to inject.

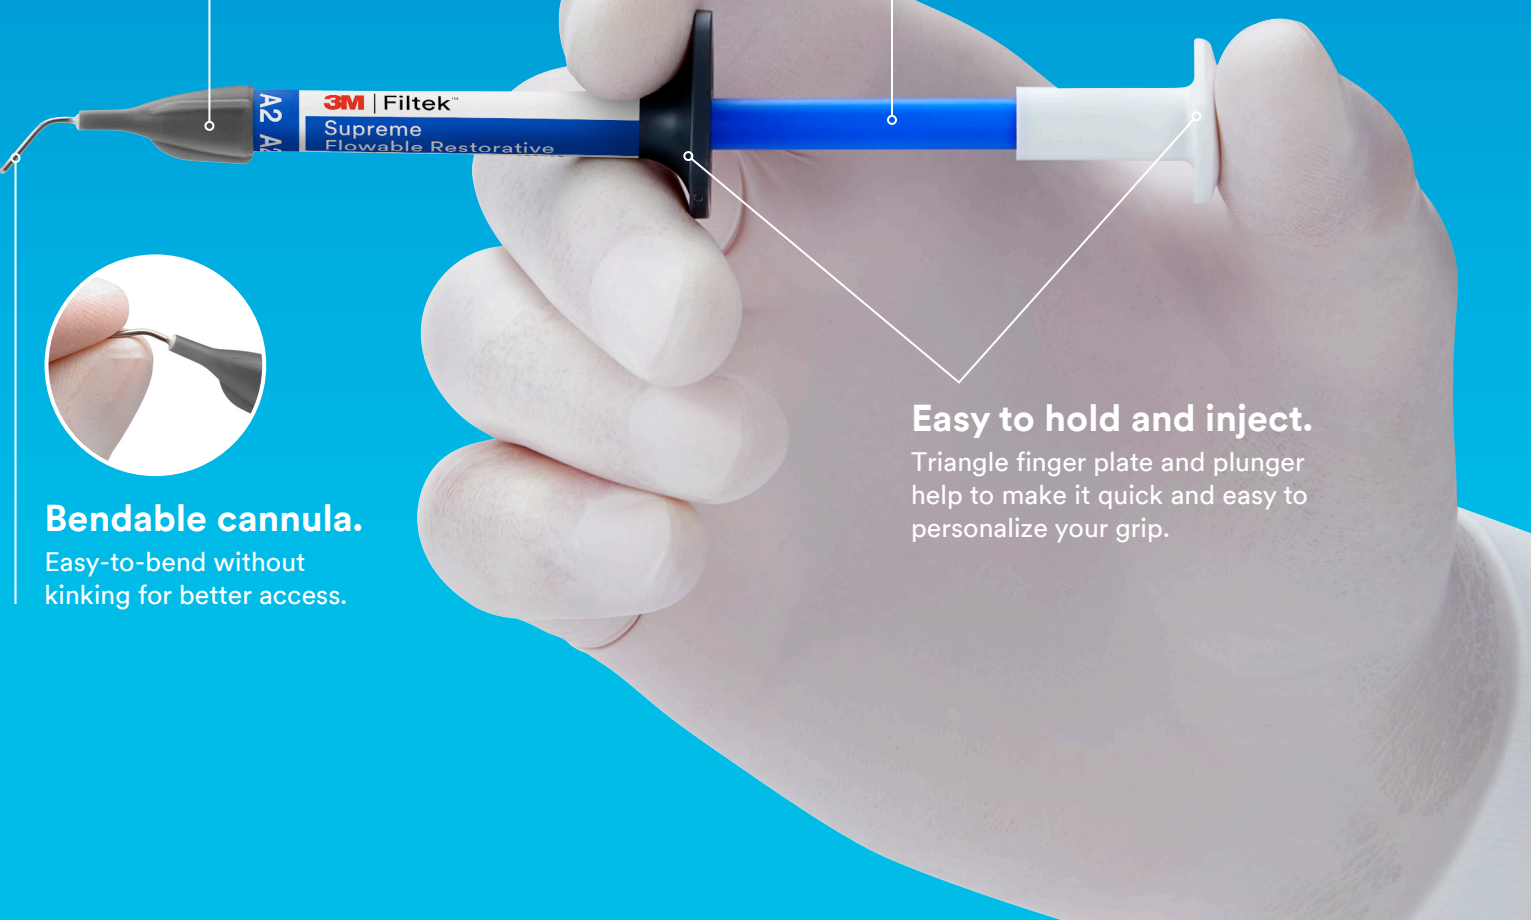

3M™ Filtek™ Supreme Ultra Flowable Restorative is available in a new ergonomic-designed syringe. Designed for improved comfort and easier injection, this new product is called 3M™ Filtek™ Supreme Flowable Restorative.

Helps reduce bubbles and waste.

Virtually no bubbles or material “run-on” during dispensing gives you better control.

No more guessing.

The blue syringe barrel indicates the remaining material volume. When your syringe is empty, only the white plunger shows.

Bendable cannula.

Easy-to-bend without kinking for better access.

Easy to hold and inject.

Triangle finger plate and plunger help to make it quick and easy to personalize your grip.

Key benefits

- Virtually no bubbles or material “run-on”
- Easy-to-bend cannula for improved access
- Ergonomic-design is easy to hold and inject
- Excellent adaptation, polish retention and wear resistance
- Versatile for a wide range of indications and techniques

Can be warmed for injection moulding.

No higher than 70°C (158°F), no longer than 1 hour; up to 25 times.

Clinical Cases

3M™ Filtek™ Supreme Flowable Restorative offers a smooth transition from material to tooth for esthetic restorations.
